

Annexure 1 – Supporting Reference Docs

- Students can find out about Policy level initiatives for the topic/theme selected through newspapers or discussing with elders
- Spot what initiatives are taken for solving the issues in their locality. For example – for cleanliness related issue – when is regular street cleaning done, is waste collected everyday/gap of two days, etc.
- Any state level rankings available, they can find out about it. For example – for pollution, if there is any pollution index, for cleanliness, what is the ranking of state, where was it before, etc.
 - Health Care – Medical care facilities, availability of doctors, sanitation and hygiene practices, vaccination drives, etc.
 - Education – school infrastructure, education quality and facilities, access to schools, drop-out rates, etc.
 - Law & Order – Crime rates, safety of people, access to police services, case resolutions, etc.
 - Infrastructure – roadways between cities, highways, electricity supply infrastructure, water supply infrastructure, etc.
 - Technology – Connectivity in remote areas, internet and tele connection issues, cyber safety, digital literacy and awareness programs, etc.
 - Environment – Pollution of air, water, noise, etc – its associated laws and protection policies, waste management practices, deforestation, etc.

Some articles for reference to help students understand what kind of articles to look for --
